

Energy and Clean Air Business Expo Fresno Convention Center, Exhibit Hall June 21, 2007

On June 21, 2007, the General Services Department was asked to participate in the Energy and Clean Air Business Exposition at the Fresno Convention Center Exhibit Hall. Joseph Oldham, Jason MacDonald, Christie Kelly, Pam Parr and Penny Hupp were on hand to talk with everyone who stopped by our booth which we shared with the Public Works Department for information on City programs and successes. We were able to showcase our efforts in the Clean Air Fleet area as well as tell our Photovoltaic Solar System story. Mayor Alan Autry was presented with an award from the Secretary of the EPA for the work he and the City of Fresno have done to promote clean energy efforts and several GSD staff were on hand to represent part of Team Clean Air.
